

L.D. served seven years in the Navy from 1968 to 1975, which included five years aboard nuclear-powered, Fast Attack submarines. His first submarine mission was an under-ice expedition to the North Pole — an adventure few will ever experience. L.D.'s life is quieter now. He is retired and has been devoting more and more time to writing novels and short stories. Here is a complete list of his publishing credits:
